DATA QUALITY SHEET

ATP

Adenosine-5'-triphosphate, ammonium salt

Produced in accordance with technical specification

№ 9399-001-11849709-2016.

FOR RESEARCH USE ONLY.

Cat.: rN-AXXXX

Lot:

Production date:

Delivery form: Sterile water solution of the nucleotide, pH 7.5.

Concentration: 0,1 M, determined spectrophotometrically, $\lambda_{\max} = 259$ nm.

Quality control:

- Colorless transparent liquid.
- Purity according to HPLC analysis is __99.9__%.
- Product is free of DNases, RNases and phosphatases activities.
- Suitable in vivo transcription, RNA amplification, miRNA and siRNA synthesis.

Storage: -20°C. Avoid multiple freezing-thawing.

Transportation: The product does not require special conditions of transportation.

Expiry date:

Operator: Kononova A.V. _____
